**Subject:** Area 40 PRB Pre-Design Work Plan  
**Attachments:** PDIWP\_PRB Final Compiled.pdf

Hi Everyone – Aerojet Rocketdyne, Inc. (AR) has prepared the attached work plan to conduct additional investigation in the vicinity of the PRB that is required as part of the Remedial Design and Implementation Plan (RDIP) #2. AR feels that this additional work will assist in designing a PRB that maximizes effectiveness based upon depth to bedrock and lithologic properties. We intend on implementing this work as soon as possible. Once this work is completed, we will submit the final PRB design for your review and approval. Completing this additional field work in June will allow AR to remain on schedule for completion of RDIP#2 by mid-September 2020.

Let me know if you have questions or would like to schedule a call to discuss. Thanks! Chris
